

# **Cowbit St Mary's CofE Primary School**

## **Online Safety Policy**

Policy to be reviewed annually

Policy reviewed \_\_\_/\_\_\_/\_\_\_

### **Our Vision**

**We are a small, inclusive Church of England Primary School that welcomes everyone and encourages all voices to be heard. Through challenge and support, we strive towards each person becoming the best person God intended them to be, happily flourishing as human beings. We empower our whole school community to be hopeful about the future and to be drivers of positive change.**

## Development/Monitoring/Review of this Policy

This online safety policy has been developed by a working group made up of:

- Headteacher and School Business Manager and approved by Governors

Consultation with the Governing Body and school community has taken place through a range of formal and informal meetings.

### Schedule for Development/Monitoring/Review

This online safety policy was approved by the Governing on:	<i>28 Sept 2021</i>
The implementation of this online safety policy will be monitored by the:	<i>Online Safety Subject Coordinator Online safety committee</i>
Monitoring will take place at regular intervals:	<i>Twice per academic year</i>
The Governing Body will receive a report on the implementation of the online safety policy generated by the online safety committee (which will include anonymous details of online safety incidents) at regular intervals:	<i>At FGB meetings</i>
The online safety policy will be reviewed annually, or more regularly in the light of any significant new developments in the use of the technologies, new threats to online safety or incidents that have taken place. The next anticipated review date will be:	<i>September 2022</i>
Should serious online safety incidents take place, the following external persons/agencies should be informed:	<i>Designated Safeguarding Leads, ARK ICT, .: LA Safeguarding Officer, LADO, Police</i>

The school will monitor the impact of the policy using:

- Logs of reported incidents
- Surveys/questionnaires of
  - students/pupils
  - parents/carers
  - staff

### Scope of the Policy

This policy applies to all members of the *school* community (including staff, students/pupils, volunteers, parents/carers, visitors, community users) who have access to and are users of school digital technology systems, both in and out of the *school*.

The Education and Inspections Act 2006 empowers Headteachers to such extent as is reasonable, to regulate the behaviour of students/pupils when they are off the *school* site and empowers members of staff to impose disciplinary penalties for inappropriate behaviour. This is pertinent to incidents of online-bullying or other online safety incidents covered by this policy, which may take place outside of the *school*, but is linked to membership of the school. The 2011 Education Act increased these powers with regard to the searching for and of electronic devices and the deletion of data. In the case of both acts, action can only be taken over issues covered by the published Behaviour Policy.

The *school* will deal with such incidents within this policy and associated behaviour and anti-bullying policies and will, where known, inform parents/carers of incidents of inappropriate online safety behaviour that take place out of school.

### Roles and Responsibilities

The following section outlines the online safety roles and responsibilities of individuals and groups within the *school*:

#### Governors

*Governors* are responsible for the approval of the online safety policy and for reviewing the effectiveness of the policy. This will be carried out by the *Governors Sub Committee* receiving regular information about online safety incidents and monitoring

reports. A member of the *Governing Body* has taken on the role of *Online Safety Governor* The role of the *Online Safety Governor* will include:

- regular meetings with the Online Safety Co-ordinator
- attendance at Online Safety Group meetings
- regular monitoring of online safety incident logs
- regular monitoring of filtering/change control logs
- reporting to relevant Governors

Headteacher and Senior Leaders

- The *Headteacher* has a duty of care for ensuring the safety (including online safety) of members of the school community, though the day to day responsibility for online safety will be delegated to the *Online Safety Lead*.
- The Headteacher and another member of the Senior Leadership Team (SBM) should be aware of the procedures to be followed in the event of a serious online safety allegation being made against a member of staff. (see flow chart on dealing with online safety incidents – included in a later section – “Responding to incidents of misuse” and relevant *Local Authority* disciplinary procedures.
- *The Headteacher is responsible for ensuring that the Online Safety Lead and other relevant staff receive suitable training to enable them to carry out their online safety roles and to train other colleagues, as relevant.*
- *The Headteacher will ensure that there is a system in place to allow for monitoring and support of those in school who carry out the internal online safety monitoring role. This is to provide a safety net and also support to those colleagues who take on important monitoring roles. E-safety training, support from Ark and keep records of incidents or training needed.*

Online Safety Lead- HT-Bruce Johnson

- leads the Online Safety Group
- takes day to day responsibility for online safety issues and has a leading role in establishing and reviewing the school online safety policies/documents
- ensures that all staff are aware of the procedures that need to be followed in the event of an online safety incident taking place.
- provides training and advice for staff
- liaises with the Local Authority/relevant body
- liaises with ICTI technical staff
- receives reports of online safety incidents and creates a log of incidents to inform future online safety developments
- meets regularly with *Online Safety Governor* to discuss current issues, review incident logs and filtering/change control logs
- attends relevant meetings of *Governors*

These incidents will be dealt with and a decision will be made by the HT and Online Safety Governor as to whether and/or how the investigation/action/sanctions will be carried out.

Network Manager/Technical staff

Ark, Headteacher and Governor Lead.

Those with technical responsibilities are responsible for ensuring:

- that the *school's* technical infrastructure is secure and is not open to misuse or malicious attack
- that the *school* meets required online safety technical requirements and any *Local Authority other relevant body* online safety policy/guidance that may apply.
- that users may only access the networks and devices through a properly enforced password protection policy
- *the filtering policy is applied and updated on a regular basis and that its implementation is not the sole responsibility of any single person*
- that they keep up to date with online safety technical information in order to effectively carry out their online safety role and to inform and update others as relevant
- that the use of the *networks/internet/digital technologies* is regularly monitored in order that any misuse/attempted misuse can be reported to the *Headteacher Online Safety Lead* for investigation/action/sanction
- *that monitoring software/systems are implemented and updated as agreed in school policies*

#### Teaching and Support Staff

Are responsible for ensuring that:

- they have an up to date awareness of online safety matters and of the current *school* online safety policy and practices
- they have read, understood and signed the staff acceptable use policy/agreement (AUP/AUA)
- they report any suspected misuse or problem to the *Headteacher, SBM Online Safety Governor* for investigation/action/sanction
- all digital communications with students/pupils/parents/carers should be on a professional level *and only carried out using official school systems*
- online safety issues are embedded in all aspects of the curriculum and other activities
- pupils understand and follow the Online Safety Policy and acceptable use policies
- pupils have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- they monitor the use of digital technologies, mobile devices, cameras, etc. in lessons and other school activities (where allowed) and implement current policies with regard to these devices
- *in lessons where internet use is pre-planned pupils should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches*

#### Designated Safeguarding Lead

Should be trained in online safety issues and be aware of the potential for serious child protection/safeguarding issues to arise from:

- sharing of personal data
- access to illegal/inappropriate materials
- inappropriate on-line contact with adults/strangers
- potential or actual incidents of grooming

- online-bullying

#### Online Safety Group

The Online Safety Committee provides a consultative group that has wide representation from the *school* community, with responsibility for issues regarding online safety and the monitoring the Online Safety Policy including the impact of initiatives. The group will also be responsible for regular reporting to the *Governing Body/Directors*.

Members of the Online Safety Committee will assist the Online Safety Lead (or other relevant person, as above with:

- the production/review/monitoring of the school online safety policy/documents.
- *the production/review/monitoring of the school filtering policy (if the school chooses to have one) and requests for filtering changes.*
- mapping and reviewing the online safety/digital literacy curricular provision – ensuring relevance, breadth and progression
- monitoring network/internet/filtering/incident logs
- consulting stakeholders – including parents/carers and the students/pupils about the online safety provision
- monitoring improvement actions identified through use of the 360 degree safe self-review tool

Online safety group is made up of HT, Governor/Chair of Governors, teacher, auxiliary staff and 2pupils, 1 mini police and 1 school council. (pupils will not be involved in investigations, disciplinary actions or other serious matters.)

Pupils:

- **are responsible for using the *school* digital technology systems in accordance with the pupil acceptable use agreement**
- have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- need to understand the importance of reporting abuse, misuse or access to inappropriate materials and know how to do so
- will be expected to know and understand policies on the use of mobile devices and digital cameras. They should also know and understand policies on the taking/use of images and on online-bullying.
- should understand the importance of adopting good online safety practice when using digital technologies out of school and realise that the *school's* online safety policy covers their actions out of school, if related to their membership of the school

Parents/carers

Parents/carers play a crucial role in ensuring that their children understand the need to use the internet/mobile devices in an appropriate way. The *school* will take every opportunity to help parents understand these issues through *parents' evenings, newsletters, letters, website, social media and information about national/local online safety campaigns/literature*. Parents and carers will be encouraged to support the *school* in promoting good online safety practice and to follow guidelines on the appropriate use of:

- digital and video images taken at school events

- access to parents' sections of the website/Learning Platform and on-line student/pupil records
- *their children's personal devices in the school/academy (where this is allowed)*

Community Users (N/A currently but if needed this will apply)

Community Users who access school systems or programmes as part of the wider school provision will be expected to sign a Community User AUA before being provided with access to school systems.

## Policy Statements

Education – Pupils

Whilst regulation and technical solutions are very important, their use must be balanced by educating *students/pupils* to take a responsible approach. The education of *pupils* in online safety/digital literacy is therefore an essential part of the school's online safety provision. Children and young people need the help and support of the school to recognise and avoid online safety risks and build their resilience.

In planning their online safety curriculum schools may wish to refer to:

- DfE Teaching Online Safety in Schools
- Stay Safe Partnership LCC

Online safety should be a focus in all areas of the curriculum and staff should reinforce online safety messages across the curriculum. The online safety curriculum should be broad, relevant and provide progression, with opportunities for creative activities and will be provided in the following ways:

A planned online safety curriculum should be provided as part of Computing/PHSE/other lessons and should be regularly revisited

- Key online safety messages should be reinforced as part of a planned programme of assemblies and tutorial/pastoral activities
- Pupils should be taught in all lessons to be critically aware of the materials/content they access on-line and be guided to validate the accuracy of information.
- Pupils should be taught to acknowledge the source of information used and to respect copyright when using material accessed on the internet
- Pupils should be supported in building resilience to radicalisation by providing a safe environment for debating controversial issues and helping them to understand how they can influence and participate in decision-making. N.B. additional duties for schools/academies under the Counter Terrorism and Securities Act 2015 which requires schools to ensure that children are safe from terrorist and extremist material on the internet.
- *Students should be helped to understand the need for the student/pupil acceptable use agreement and encouraged to adopt safe and responsible use both within and outside school/academy.*
- *Staff should act as good role models in their use of digital technologies, the internet and mobile devices*
- *In lessons where internet use is pre-planned, it is best practice that students/pupils should be guided to sites checked as suitable for their use and*

*that processes are in place for dealing with any unsuitable material that is found in internet searches.*

- *Where /pupils are allowed to freely search the internet, staff should be vigilant in monitoring the content of the websites the young people visit.*
- *It is accepted that from time to time, for good educational reasons, students may need to research topics (e.g. racism, drugs, discrimination) that would normally result in internet searches being blocked. In such a situation, staff can request that the Technical Staff (or other relevant designated person) can temporarily remove those sites from the filtered list for the period of study. Any request to do so, should be auditable, with clear reasons for the need.*

#### Education – Parents/carers

Many parents and carers have only a limited understanding of online safety risks and issues, yet they play an essential role in the education of their children and in the monitoring/regulation of the children's online behaviours. Parents may underestimate how often children and young people come across potentially harmful and inappropriate material on the internet and may be unsure about how to respond. The school will therefore seek to provide information and awareness to parents and carers through:

- *Curriculum activities*
- *Letters, newsletters, website,*
- *Parents/carers evenings/sessions*
- *Reference to the relevant web sites/publications e.g. [www.saferinternet.org.uk/](http://www.saferinternet.org.uk/), <http://www.childnet.com/parents-and-carers> <https://www.lincolnshire.gov.uk/directory/16/stay-safe-partnership/category/69>*

#### Education – The Wider Community

The school will provide opportunities for local community groups/members of the community to gain from the school's online safety knowledge and experience. This may be offered through the following:

- *Providing family learning courses in use of new digital technologies, digital literacy and online safety*
- *Online safety messages targeted towards grandparents and other relatives as well as parents.*
- *The school website will provide online safety information for the wider community*
- *Sharing their online safety expertise/good practice with other local schools*
- *Supporting community groups e.g. Early Years Settings, Childminders, youth/sports/voluntary groups to enhance their online safety provision*

#### Education & Training – Staff/Volunteers

It is essential that all staff receive online safety training and understand their responsibilities, as outlined in this policy. Training will be offered as follows:

- *A planned programme of formal online safety training will be made available to staff. This will be regularly updated and reinforced. An audit of the online safety training needs of all staff will be carried out regularly.*

- All new staff should receive online safety training as part of their induction programme, ensuring that they fully understand the school online safety policy and acceptable use agreements.
- *It is expected that some staff will identify online safety as a training need within the performance management process.*
- *This online safety policy and its updates will be presented to and discussed by staff in staff meetings and or training sessions.*
- *The Online Safety Lead (or other nominated will provide advice/guidance/training to individuals as required.*

#### Training – Governors

Governors should take part in online safety training/awareness sessions, with particular importance for those who are members of any group involved in technology/online safety/health and safety /safeguarding. This may be offered in a number of ways:

- Attendance at training provided by the Local Authority, National Governors Association
- Participation in school training/information sessions for staff or parents (this may include attendance at assemblies/lessons).

#### Technical – infrastructure/equipment, filtering and monitoring

If the school has a managed ICT service provided by an outside contractor (ARK), it is the responsibility of the school to ensure that the managed service provider carries out all the online safety measures that would otherwise be the responsibility of the school. It is also important that the managed service provider is fully aware of the school online safety policy/acceptable use agreements. The school should also check their Local Authority other relevant body policies on these technical issues.

The school will be responsible for ensuring that the school infrastructure/network is as safe and secure as is reasonably possible and that policies and procedures approved within this policy are implemented. It will also need to ensure that the relevant people named in the above sections will be effective in carrying out their online safety responsibilities:

- School technical systems will be managed in ways that ensure that the school meets recommended technical requirements
- There will be regular reviews and audits of the safety and security of school technical systems
- Servers, wireless systems and cabling must be securely located and physical access restricted
- All users will have clearly defined access rights to school/academy technical systems and devices.
- All users will be provided with a username and secure password by the class teacher *who will keep an up to date record of users and their usernames.* Users are responsible for the security of their username and password.
- Internet access is filtered for all users. Illegal content (child sexual abuse images) is filtered by the broadband or filtering provider by actively employing the Internet Watch Foundation CAIC list. Content lists are regularly updated and internet use is logged and regularly monitored.
- There is a clear process in place to deal with requests for filtering changes

- Internet filtering/monitoring should ensure that children are safe from terrorist and extremist material when accessing the internet. N.B. additional duties for schools under the Counter Terrorism and Securities Act 2015 which requires schools to ensure that children are safe from terrorist and extremist material on the internet.
- *The school has provided enhanced user-level filtering (allowing different filtering levels for different groups of users – ex: HT/SBM access to Wdrive, staff have access to Youtube for educational purposes. School technical staff regularly monitor and record the activity of users on the school technical systems and users are made aware of this in the acceptable use agreement.*
- *An appropriate system is in place for users to report any actual/potential technical incident/security breach to the relevant person, as agreed).*
- Appropriate security measures are in place to protect the servers, firewalls, routers, wireless systems, work stations, mobile devices, etc. from accidental or malicious attempts which might threaten the security of the school systems and data. These are tested regularly. The school infrastructure and individual devices are protected by up to date virus software.
- An agreed policy is in place for the provision of temporary access of “guests” (e.g. trainee teachers, supply teachers, visitors) onto the school systems. Supply/student teachers use Studen/Cover username and password for accessing school devices. Passwords to change regularly.
- *An agreed policy is in place regarding the extent of personal use that users (staff/pupils/community users) and their family members are allowed on school devices that may be used out of school.*
- *An agreed policy is in place that allows staff to/forbids staff from downloading executable files and installing programmes on school devices.*
- *An agreed policy is in place regarding the use of removable media (e.g. memory sticks/CDs/DVDs) by users on school devices. Personal data cannot be sent over the internet or taken off the school site unless safely encrypted or otherwise secured.*

### Mobile Technologies (including BYOD/BYOT)

Mobile technology devices may be school owned/provided and might include: smartphone, tablet, notebook/laptop or other technology that usually has the capability of utilising the school’s wireless network. The device then has access to the wider internet which may include the school’s learning platform and other cloud based services such as email and data storage.

All users should understand that the primary purpose of the use mobile/personal devices in a school context is educational. The mobile technologies policy should be consistent with and inter-related to other relevant school policies including but not limited to the safeguarding policy, behaviour policy, bullying policy, acceptable use policy, and policies around theft or malicious damage. Teaching about the safe and appropriate use of mobile technologies should be an integral part of the school’s online safety education programme.

- The school acceptable use agreements for staff, pupils/students and parents/carers will give consideration to the use of mobile technologies
- The school allows: (the school should complete the table below to indicate which devices are allowed and define their access to school systems)

	School Devices	Personal Devices
--	----------------	------------------

	School owned for single user	School owned for multiple users	Authorised device <sup>1</sup>	Student owned	Staff owned	Visitor owned
Allowed in school	Yes	Yes	Yes	No <sup>2</sup>	Yes	Yes
Full network access	Yes	Yes	Yes	No	No	no
Internet only						Yes
Network access	No	No	No	No	No	Only if needed for inspection etc.

Aspects that the school may wish to consider and be included in their online safety policy, mobile technologies policy or acceptable use agreements:

School owned/provided devices:

- Who they will be allocated to Staff, supply, student teachers.
- Where, when and how their use is allowed – school related any time but discouraged when not at work.
- Not for personal use in regards to checking personal emails, banking, social media, and searches which are deemed inappropriate or illegal.
- Levels of access to networks/internet (as above in chart)
- Management of devices/installation of apps/changing of settings/monitoring
- Network/broadband capacity
- Technical support (ARK but contact SBM/HT first)
- Filtering of devices
- Access to cloud services
- Data Protection
- Taking/storage/use of images
- Exit processes – what happens to devices/software/apps/stored data if user leaves the school- devices are return and re-set by ARK.
- Liability for damage
- Staff training

Personal devices:

- Which users are allowed to use personal mobile devices in school (staff/students/visitors see chart)
- Restrictions on where, when and how they may be used in school- during breaks.
- Storage – in personal bags, cupboards. Pupils to leave at the office.
- Staff are not to use personal devices for school business except for contact school absences or related.
- Levels of access to networks/internet (as above)  
No technical support is available
- Filtering of the internet connection to these devices n/a as no access.
- Data Protection as GDPR
- The right to take, examine and search users devices in the case of misuse (England only) – N.B. this must also be included in the Behaviour Policy.
- Taking/storage/use of images no images of pupils or their named work on personal devices.
- The school is not Liable for loss/damage or malfunction following access to the network  
Identification/labelling of personal devices
- Visitors informed upon arrival

### Use of digital and video images

The development of digital imaging technologies has created significant benefits to learning, allowing staff and students/pupils instant use of images that they have

<sup>1</sup> Authorised device – purchased by the pupil/family through a school-organised scheme. This device may be given full access to the network as if it were owned by the school.

<sup>2</sup> The school should add below any specific requirements about the use of mobile/personal devices in school

recorded themselves or downloaded from the internet. However, staff, parents/carers and students/pupils need to be aware of the risks associated with publishing digital images on the internet. Such images may provide avenues for online-bullying to take place. Digital images may remain available on the internet forever and may cause harm or embarrassment to individuals in the short or longer term. It is common for employers to carry out internet searches for information about potential and existing employees. The school will inform and educate users about these risks and will implement policies to reduce the likelihood of the potential for harm:

When using digital images, staff should inform and educate students/pupils about the risks associated with the taking, use, sharing, publication and distribution of images. In particular they should recognise the risks attached to publishing their own images on the internet e.g. on social networking sites.

- Written permission from parents or carers will be obtained before photographs of students/pupils are published on the school website/social media/local press
- In accordance with guidance from the Information Commissioner's Office, parents/carers are welcome to take videos and digital images of their children at school/academy events for their own personal use (as such use is not covered by the Data Protection Act). To respect everyone's privacy and in some cases protection, these images should not be published/made publicly available on social networking sites, nor should parents/carers comment on any activities involving other *students/pupils* in the digital/video images.
- Staff and volunteers are allowed to take digital/video images to support educational aims, but must follow school policies concerning the sharing, distribution and publication of those images. Those images should only be taken on school equipment; the personal equipment of staff should not be used for such purposes.
- Care should be taken when taking digital/video images that students/pupils are appropriately dressed and are not participating in activities that might bring the individuals or the school/academy into disrepute.
- Students/pupils must not take, use, share, publish or distribute images of others without their permission
- Photographs published on the website, or elsewhere that include students/pupils will be selected carefully and will comply with good practice guidance on the use of such images.
- Students' full names will not be used anywhere on a website or blog, particularly in association with photographs.
- Student's work can only be published with the permission of the pupil and parents or carers.

#### Data Protection

With effect from 25th May 2018, the data protection arrangements for the UK changed following the European Union General Data Protection Regulation (GDPR). As a result, schools are likely to be subject to greater scrutiny in their care and use of personal data.

Personal data will be recorded, processed, transferred and made available according to the current data protection legislation.

The school must ensure that:

- it has a Data Protection Policy.
- it implements the data protection principles and is able to demonstrate that it does so through use of policies, notices and records.
- it has paid the appropriate fee Information Commissioner's Office (ICO) and included details of the Data Protection Officer (DPO).
- it has appointed an appropriate Data Protection Officer (DPO) ARK IT Consultant who has a high level of understanding of data protection law and is free from any conflict of interest.
- it has an 'information asset register' in place and knows exactly what personal data it holds, where this data is held, why and which member of staff has responsibility for managing it
- the information asset register records the lawful basis for processing personal data (including, where relevant, how consent was obtained and refreshed). Where special category data is processed, an additional lawful basis will have also been recorded
- it will hold only the minimum personal data necessary to enable it to perform its function and it will not hold it for longer than necessary for the purposes it was collected for. The school should develop and implement a 'retention policy' to ensure there are clear and understood policies and routines for the deletion and disposal of data to support this. personal data held must be accurate and up to date where this is necessary for the purpose it is processed for. Have systems in place to identify inaccuracies, such as asking parents to check emergency contact details at suitable intervals
- it provides staff, parents, volunteers, teenagers and older children with information about how the school looks after their data and what their rights are in a clear Privacy Notice
- procedures must be in place to deal with the individual rights of the data subject, e.g. one of the 8 data subject rights applicable is that of Subject Access which enables an individual to see to have a copy of the personal data held about them (subject to certain exceptions which may apply).
- data Protection Impact Assessments (DPIA) are carried out where necessary. For example, to ensure protection of personal data when accessed using any remote access solutions, or entering into a relationship with a new supplier (this may also require ensuring that data processing clauses are included in the supply contract or as an addendum)
- IT system security is ensured and regularly checked. Patches and other security essential updates are applied promptly to protect the personal data on the systems. Administrative systems are securely ring fenced from systems accessible in the classroom/to learners
- it has undertaken appropriate due diligence and has required data processing clauses in contracts in place with any data processors where personal data is processed.
- it understands how to share data lawfully and safely with other relevant data controllers.
- it [reports any relevant breaches to the Information Commissioner](#) within 72hrs of becoming aware of the breach in accordance with UK data protection law. It also

reports relevant breaches to the individuals affected as required by law. In order to do this, it has a policy for reporting, logging, managing, investigating and learning from information risk incidents.

- If a maintained school/academy, it must have a Freedom of Information Policy which sets out how it will deal with FOI requests.
- all staff receive data protection training at induction and appropriate refresher training thereafter. Staff undertaking particular data protection functions, such as handling requests under the individual's rights, will receive training appropriate for their function as well as the core training provided to all staff.

When personal data is stored on any removable storage the:

- data must be encrypted and password protected.
- device must be password protected. (be sure to select devices that can be protected in this way)
- device must be protected by up to date virus and malware checking software
- data must be securely deleted from the device, in line with school policy once it has been transferred or its use is complete.

Staff must ensure that they:

- at all times take care to ensure the safe keeping of personal data, minimising the risk of its loss or misuse
- can recognise a possible breach, understand the need for urgency and know who to report it to within the school
- can help data subjects understand their rights and know how to handle a request whether verbal or written. Know who to pass it to in the school
- where personal data is stored or transferred on mobile or other devices (including USBs) these must be encrypted and password protected.
- will not transfer any school personal data to personal devices.
- access personal data sources and records only on secure password protected computers and other devices, ensuring that they are properly "logged-off" at the end of any session in which they are using personal data

## Communications

A wide range of rapidly developing communications technologies has the potential to enhance learning. The following table shows how the school currently considers the benefit of using these technologies for education outweighs their risks/disadvantages:

Communication Technologies	Staff & other adults				Students/Pupils			
	Allowed	Allowed at certain times	Allowed for selected staff	Not allowed	Allowed	Allowed at certain times	Allowed with staff permission	Not allowed
Mobile phones may be brought to the school	*						*	
Use of mobile phones in lessons				*				*
Use of mobile phones in social time	*							*
Taking photos on mobile phones/cameras (no pupils)		*						*
Use of other mobile devices e.g. tablets, gaming devices		*						*
Use of personal email addresses in school/academy, or on school/academy network				*				*
Use of school/academy email for personal emails				*				*
Use of messaging apps			*					*
Use of social media			*					*
Use of blogs			*					*

When using communication technologies, the school/academy considers the following as good practice:

- The official *school* email service may be regarded as safe and secure and is monitored. Users should be aware that email communications are monitored. *Staff and students/pupils should therefore use only the school email service to communicate with others when in school, or on school systems (e.g. by remote access).*
- Users must immediately report, to the nominated person – in accordance with the school/academy policy, the receipt of any communication that makes them feel uncomfortable, is offensive, discriminatory, threatening or bullying in nature and must not respond to any such communication

- Any digital communication between staff and students/pupils or parents/carers (email, social media, chat, blogs, VLE etc) must be professional in tone and content. *These communications may only take place on official (monitored) school systems. Personal email addresses, text messaging or social media must not be used for these communications.*
- *Whole class/group email addresses may be used at KS1, while students/pupils at KS2 and above will be provided with individual school/academy email addresses for educational use.*
- *Students/pupils should be taught about online safety issues, such as the risks attached to the sharing of personal details. They should also be taught strategies to deal with inappropriate communications and be reminded of the need to communicate appropriately when using digital technologies.*
- *Personal information should not be posted on the school/academy website and only official email addresses should be used to identify members of staff.*

#### Social Media - Protecting Professional Identity

With an increase in use of all types of social media for professional and personal purposes a policy that sets out clear guidance for staff to manage risk and behaviour online is essential. Core messages should include the protection of pupils, the school and the individual when publishing any material online. Expectations for teachers' professional conduct are set out in 'Teachers Standards 2012'. Ofsted's online safety inspection framework reviews how a school/academy protects and educates staff and pupils in their use of technology, including the measures that would be expected to be in place to intervene and support should a particular issue arise. Schools are increasingly using social media as a powerful learning tool and means of communication. It is important that this is carried out in a safe and responsible way.

All schools and local authorities have a duty of care to provide a safe learning environment for pupils and staff. Schools and local authorities could be held responsible, indirectly for acts of their employees in the course of their employment. Staff members who harass, engage in online bullying, discriminate on the grounds of sex, race or disability or who defame a third party may render the *school* or local authority liable to the injured party. Reasonable steps to prevent predictable harm must be in place.

The school provides the following measures to ensure reasonable steps are in place to minimise risk of harm to pupils, staff and the school through:

- Ensuring that personal information is not published
- Training is provided including: acceptable use; social media risks; checking of settings; data protection; reporting issues.
- Clear reporting guidance, including responsibilities, procedures and sanctions
- Risk assessment, including legal risk

School staff should ensure that:

- No reference should be made in social media to students/pupils, parents/carers or school/academy staff
- They do not engage in online discussion on personal matters relating to members of the school community
- Personal opinions should not be attributed to the *school* or local authority

- Security settings on personal social media profiles are regularly checked to minimise risk of loss of personal information

When official school/academy social media accounts are established there should be:

- *A process for approval by senior leaders*
- *Clear processes for the administration and monitoring of these accounts – involving at least two members of staff*
- *A code of behaviour for users of the accounts, including*
- *Systems for reporting and dealing with abuse and misuse*
- *Understanding of how incidents may be dealt with under school/academy disciplinary procedures*

**Personal Use:**

- Personal communications are those made via a personal social media accounts. In all cases, where a personal account is used which associates itself with the school or impacts on the school, it must be made clear that the member of staff is not communicating on behalf of the school with an appropriate disclaimer. Such personal communications are within the scope of this policy
- Personal communications which do not refer to or impact upon the school are outside the scope of this policy
- Where excessive personal use of social media in school is suspected, and considered to be interfering with relevant duties, disciplinary action may be taken
- *The school permits reasonable and appropriate access to private social media sites*

**Monitoring of Public Social Media:**

- As part of active social media engagement, it is considered good practice to pro-actively monitor the Internet for public postings about the school
- The school should effectively respond to social media comments made by others according to a defined policy or process

The *school's* use of social media for professional purposes will be checked regularly by the senior risk officer and Online Safety Group to ensure compliance with the school policies.

### **Dealing with unsuitable/inappropriate activities**

Some internet activity e.g. accessing child abuse images or distributing racist material is illegal and would obviously be banned from school/academy and all other technical systems. Other activities e.g. cyber-bullying would be banned and could lead to criminal prosecution. There are however a range of activities which may, generally, be legal but would be inappropriate in a school/academy context, either because of the age of the users or the nature of those activities.

The school/academy believes that the activities referred to in the following section would be inappropriate in a school/academy context and that users, as defined below, should not engage in these activities in/or outside the school/academy when using school/academy equipment or systems. The school/academy policy restricts usage as follows:

User Actions		Acceptable	Acceptable at certain times	Acceptable for nominated users	Unacceptable	Unacceptable and illegal
Users shall not visit Internet sites, make, post, download, upload, data transfer, communicate or pass on, material, remarks, proposals or comments that contain or relate to:	Child sexual abuse images –The making, production or distribution of indecent images of children. Contrary to The Protection of Children Act 1978  N.B. Schools/academies should refer to guidance about dealing with self-generated images/sexting – <a href="#">UKSIC Responding to and managing sexting incidents</a> and <a href="#">UKCIS – Sexting in schools and colleges</a>					X
	Grooming, incitement, arrangement or facilitation of sexual acts against children Contrary to the Sexual Offences Act 2003.					X
	Possession of an extreme pornographic image (grossly offensive, disgusting or otherwise of an obscene character) Contrary to the Criminal Justice and Immigration Act 2008					X
	Criminally racist material in UK – to stir up religious hatred (or hatred on the grounds of sexual orientation) - contrary to the Public Order Act 1986					X
	Pornography				X	
	Promotion of any kind of discrimination				X	
	threatening behaviour, including promotion of physical violence or mental harm					X
	Promotion of extremism or terrorism					X
Any other information which may be offensive to colleagues or breaches the integrity of the ethos of the school or brings the school into disrepute				X		
Activities that might be classed as cyber-crime under the Computer Misuse Act:						X
<ul style="list-style-type: none"> <li>Gaining unauthorised access to school networks, data and files, through the use of computers/devices</li> </ul>						X

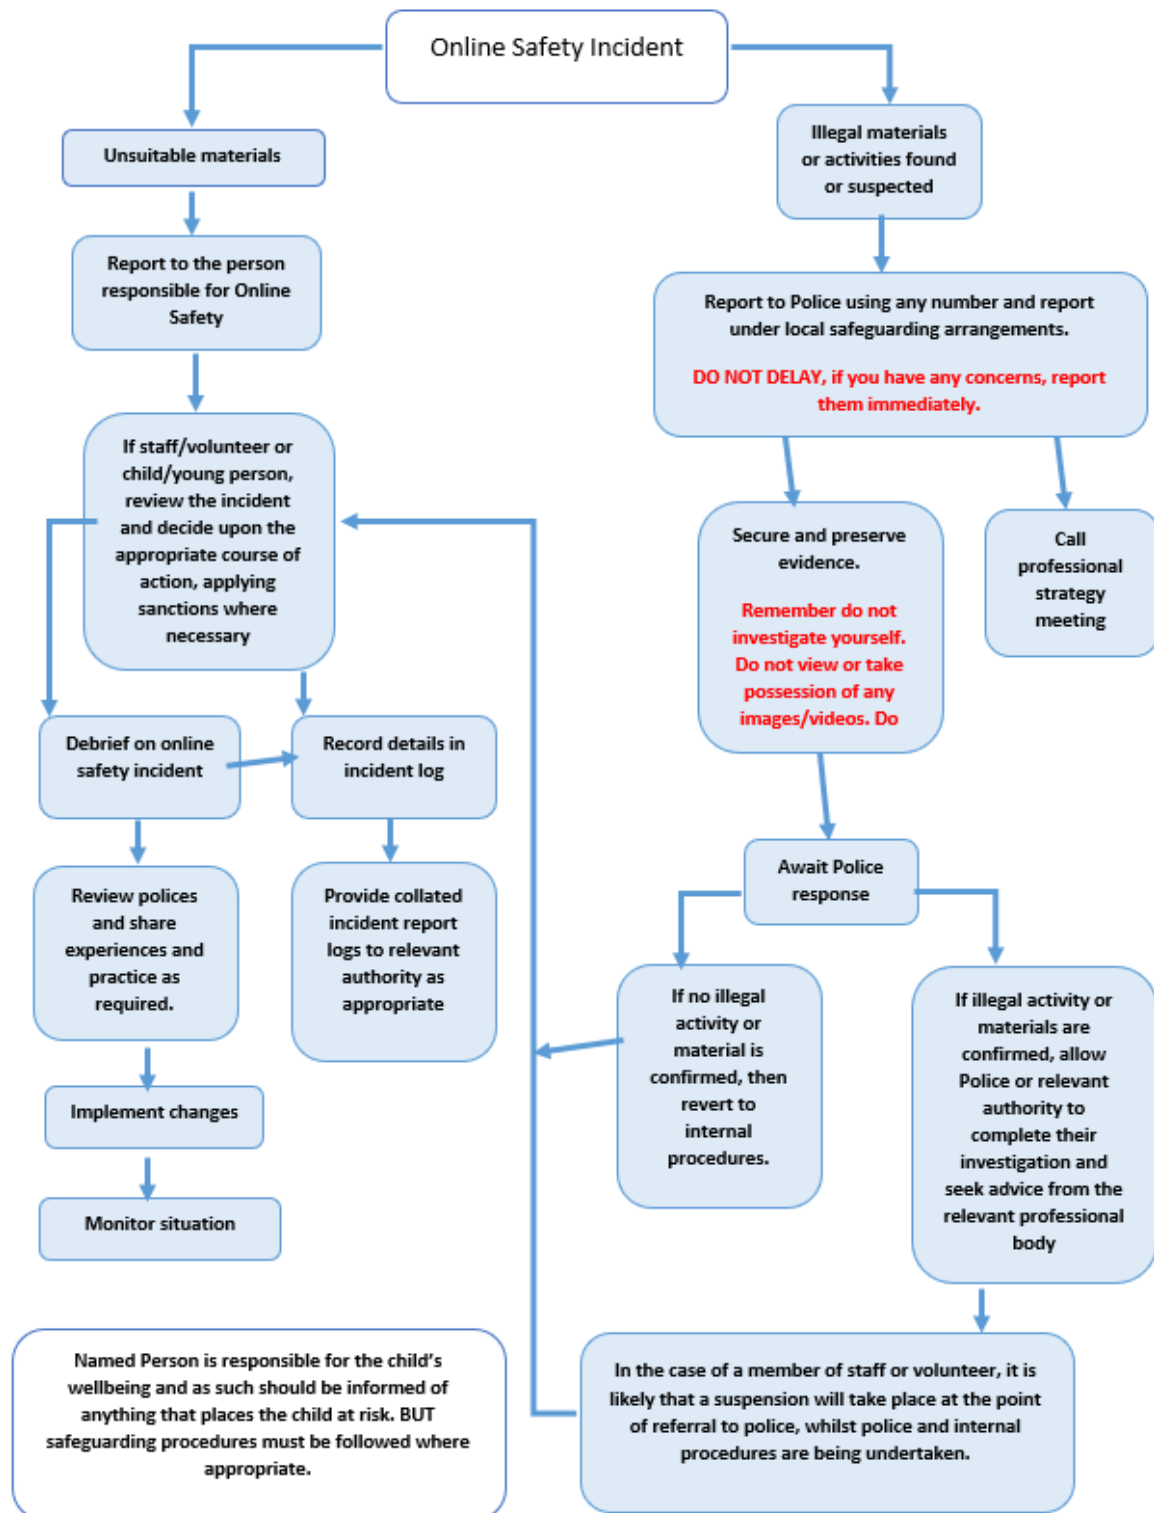

<ul style="list-style-type: none"> <li>• Creating or propagating computer viruses or other harmful files</li> <li>• Revealing or publicising confidential or proprietary information (e.g. financial / personal information, databases, computer / network access codes and passwords)</li> <li>• Disable/Impair/Disrupt network functionality through the use of computers/devices</li> <li>• Using penetration testing equipment (without relevant permission)</li> </ul>				
Using systems, applications, websites or other mechanisms that bypass the filtering or other safeguards employed by the school/academy			X	
Revealing or publicising confidential or proprietary information (e.g. financial/personal information, databases, computer/network access codes and passwords)				X
Unfair usage (downloading/uploading large files that hinders others in their use of the internet)			X	
Using school systems to run a private business				X
Infringing copyright				X
On-line gaming (educational)		X		
On-line gaming (non-educational)			X	
On-line gambling			X	
On-line shopping/commerce			X	
File sharing			X	
Use of social media			X	
Use of messaging apps			X	
Use of video broadcasting e.g. Youtube		X		

## Responding to incidents of misuse

This guidance is intended for use when staff need to manage incidents that involve the use of online services. It encourages a safe and secure approach to the management of the incident. Incidents might involve illegal or inappropriate activities (see “User Actions” above).

## Illegal Incidents

If there is any suspicion that the web site(s) concerned may contain child abuse images, or if there is any other suspected illegal activity, refer to the right hand side of the Flowchart (below and appendix) for responding to online safety incidents and report immediately to the police.

## Other Incidents

It is hoped that all members of the school community will be responsible users of digital technologies, who understand and follow school/academy policy. However, there may be times when infringements of the policy could take place, through careless or irresponsible or, very rarely, through deliberate misuse.

In the event of suspicion, all steps in this procedure should be followed:

- Have more than one senior member of staff involved in this process. This is vital to protect individuals if accusations are subsequently reported.
- Conduct the procedure using a designated computer that will not be used by young people and if necessary can be taken off site by the police should the need arise. Use the same computer for the duration of the procedure.
- It is important to ensure that the relevant staff should have appropriate internet access to conduct the procedure, but also that the sites and content visited are closely monitored and recorded (to provide further protection).
- Record the URL of any site containing the alleged misuse and describe the nature of the content causing concern. It may also be necessary to record and store screenshots of the content on the machine being used for investigation. These may be printed, signed and attached to the form (except in the case of images of child sexual abuse – see below)
- Once this has been completed and fully investigated the group will need to judge whether this concern has substance or not. If it does, then appropriate action will be required and could include the following:
  - Internal response or discipline procedures
  - Involvement by Local Authority or national/local organisation (as relevant).
  - Police involvement and/or action
- If content being reviewed includes images of child abuse, then the monitoring should be halted and referred to the Police immediately. Other instances to report to the police would include:
  - incidents of 'grooming' behaviour
  - the sending of obscene materials to a child
  - adult material which potentially breaches the Obscene Publications Act
  - criminally racist material

- promotion of terrorism or extremism
- offences under the Computer Misuse Act (see User Actions chart above)
- other criminal conduct, activity or materials
- Isolate the computer in question as best you can. Any change to its state may hinder a later police investigation.

It is important that all of the above steps are taken as they will provide an evidence trail for the and possibly the police and demonstrate that visits to these sites were carried out for safeguarding purposes. The completed form should be retained by the group for evidence and reference purposes.

### School actions & sanctions

It is more likely that the school/academy will need to deal with incidents that involve inappropriate rather than illegal misuse. It is important that any incidents are dealt with as soon as possible in a proportionate manner, and that members of the school community are aware that incidents have been dealt with. It is intended that incidents of misuse will be dealt with through normal behaviour/disciplinary procedures as follows:

Students/Pupils Incidents	Actions/Sanctions								
	Refer to class teacher/tutor	Refer to Head of Department/Year/other	Refer to Headteacher/Principal	Refer to Police	Refer to technical support staff for action re filtering/security etc.	Inform parents/carers	Removal of network/internet access rights	Warning	Further sanction e.g. detention/exclusion
<b>Deliberately accessing or trying to access material that could be considered illegal (see list in earlier section on unsuitable/inappropriate activities).</b>	X		X	X	X	X	X		X
Unauthorised use of non-educational sites during lessons	X		X			X		X	X
Unauthorised/inappropriate use of mobile phone/digital camera/other mobile device	X		X			X		X	X
Unauthorised/inappropriate use of social media/ messaging apps/personal email	X		X			X		X	X

Unauthorised downloading or uploading of files	X		X		X	X		X	X
Allowing others to access school/academy network by sharing username and passwords	X		X		X	X		X	X
Attempting to access or accessing the school/academy network, using another student's/pupil's account	X		X		X	X		X	X
Attempting to access or accessing the school/academy network, using the account of a member of staff	X		X		X	X		X	X
Corrupting or destroying the data of other users	X		X		X	X		X	X
Sending an email, text or message that is regarded as offensive, harassment or of a bullying nature	X		X		X	X		X	X
Continued infringements of the above, following previous warnings or sanctions	X		X		X	X		X	X
Actions which could bring the school/academy into disrepute or breach the integrity of the ethos of the school	X		X		X	X		X	X
Using proxy sites or other means to subvert the school's/academy's filtering system	X		X		X	X		X	X
Accidentally accessing offensive or pornographic material and failing to report the incident	X		X		X	X		X	
Deliberately accessing or trying to access offensive or pornographic material	X		X	X	X	X		X	X
Receipt or transmission of material that infringes the copyright of another person or infringes the Data Protection Act	X		X		X	X		X	X

#### Actions/Sanctions

Staff Incidents	Refer to line manager	Refer to Headteacher/Principal	Refer to Local Authority/HR	Refer to Police	Refer to Technical Support Staff for action re filtering etc.	Warning	Suspension	Disciplinary action
<b>Deliberately accessing or trying to access material that could be considered illegal (see list in earlier section on unsuitable/inappropriate activities).</b>	X	X	X	X	X	X	X	X
Inappropriate personal use of the internet/social media/personal email	X		X		X	X		
Unauthorised downloading or uploading of files	X		X		X	X		
Allowing others to access school network by sharing username and passwords or attempting to access or accessing the school network, using another person's account	X		X		X	X		

Careless use of personal data e.g. holding or transferring data in an insecure manner	X		X		X	X		
Deliberate actions to breach data protection or network security rules	X		X		X	X	X	X
Corrupting or destroying the data of other users or causing deliberate damage to hardware or software	X		X		X	X	X	X
Sending an email, text or message that is regarded as offensive, harassment or of a bullying nature	X		X		X	X	X	X
Using personal email/social networking/instant messaging/text messaging to carrying out digital communications with students/pupils	X		X	X	X	X	X	
Actions which could compromise the staff member's professional standing	X		X		X	X	X	X
Actions which could bring the school/academy into disrepute or breach the integrity of the ethos of the school	X		X		X	X	X	
Using proxy sites or other means to subvert the school's/academy's filtering system (EXCEPT FOR USING EMAILS AT HOME OR ACCESSING INTERNET)	X		X		X	X	X	
Accidentally accessing offensive or pornographic material and failing to report the incident	X		X		X		X	
Deliberately accessing or trying to access offensive or pornographic material	X		X		X	X	X	X
Breaching copyright or licensing regulations								
Continued infringements of the above, following previous warnings or sanctions	X		X	X	X IF INAPP.	X	X	X
